Dear Steve:

Enclosed please find a copy of the Board's Order of February 26, 1981 concerning the Sum Company Oljeto Mine, San Juan County, Utah. The Board has determined that the mining activities at the mine site consist of less than two acres and therefore such activities are not within the jurisdiction of the Board or Division of Oil, Gas and Mining. It is my understanding that the Division of Environmental Health will pursue the water discharge problem with Sum Company. The Division of State Lands has assumed jurisdiction of reclamation activities at the mine site in that such mining is occurring on a State mineral lease.

Sincerely,

DENISE A. DRAGOO
